### **Objective**

Help small teams deliver reliable, usable, and valuable software using incremental, reflective, and minimal process.

### Summary

Helped design, develop, and deploy software across desktop, internet, and mobile platforms.

#### Skills

### Operating Systems & Programming Languages

Productive working on Linux (Unix-like), MacOS (BSD), and Windows (WSL2) since they have similar GUI and CLI.

Since 2005, wrote Python daily, C++ or Ruby occasionally. Prior to 2005 wrote C++ daily, Python or Ruby occasionally.

#### Containers & Virtual Machines

Used Docker since 2015, Kubernetes since 2017, and VMWare since 2000.

#### Markup & Markdown

Prefer markup, markdown, or plain text for a variety of technical documentation, including this resume.

#### **Databases & Methods**

Used PostgreSQL since 2008 for its support for relational and schemaless data plus numerous extensions.

Tailored agile based on a synthesis of research from Alistair Cockburn, Allen Holub, and Bonnitta Roy.
